and Mrs. John W. Hanley of Rutland, was ordained Sunday at Esopus, N. Y., as a Catholic missionary priest, receiving the title of the Most Holy Order, C. S. S. R., becoming a member of the Congregation of the Most Holy Order, one of the most noted Catholic missionary societies of the world, and which requires about 15 years of hard study before admittance to membership is allowed.

Rev. George B. Gilbert, whose birthplace was Randolph Center, but who is now located in Middletown, Conn., started an innovation in church circles by substituting rocking chairs for pews in church. Mr. Gilbert preaches in several small back country centers and alleges that for the class of people attracted to such sections of the country, religion must be made attractive. So he had the pews removed from the churches and soft, easy rocking chairs substituted. The next Sunday the chairs were all full, too, and there was standing room only left. Mr. Gilbert is also prejudiced against organs in church. He says he wants the old-fashioned "gosh-wallopin", singin' music," by the congregation.

### MANY ARTICLES RECOVERED. But Josie Johnson of Vernon Claims

They Were Gifts to Her.

Brattleboro, July, 29.-A considerable in that town yesterday by Brattleboro officers armed with a search warrant. Miss Johnson will be given a hearing in the municipal court.

Miss Johnson, who is about 40 years old, lives a few houses south of the Frost place and has worked more or less for Miss Frost, who is over 70. Miss Frost was a sister of the late J. O. Frost of Vernon.

For years or so Miss Frost has missed articles from her home, but until tecently she assumed that she had mislaid them. Becoming finally convinced that she was being robbed she made her suspicions known to State's Attorney E. W. Gibson of this town, who issued a warrant to have Miss Johnson's house

Sheriff Frank L. Wellman and Deputy Sheriff Fred Cressy of this place and Sheriff Arthur M. Haskins of Greenfield, Mass., a friend of the Frost family, went by automobile to Vernon yesterday and made the search, and among the arti found were many which were identified by Miss Frost as her property

Among the articles missed by Miss Frost were a blanket belonging to a pair, silver knives and forks, cups, saucers, cotton cloth, doilies, etc.

Miss Johnson will be charged with larceny, but it is her claim that the articles claimed to have been stolen were given her by J. O. Frost.

## MUCH POULTRY STOLEN

Over 40 Chickens Were Taken at Townshend Recently.

Brattleboro, July 29-The theft of over 40 head of Light Brahma poultry, which were being raised by Albert C. Franklin and William Blood of Townshend, was discovered one morning late last week when Mr. Franklin went to feed them. They were a part of a flock of about 100, all young stock and were in coops in an easily accessible place in the village of Harmonyville. A highpriced male bird was overlooked.

Three of the birds got away from the thieves in different places and were found, which indicated which way the thieves went, but beyond that the search availed nothing. The fact that the birds were too young to be used as broilers is thought to indicate that they were

year will be \$35 on the thousand valua. Nothing Like Plain Bitro-Phosphate to Put on Firm, Healthy Flesh and to Increase Strength, Vigor and Nerve

> When one stops to consider the host of thin people who are searching continually for some method by which they may increase their flesh to normal proportions by the filling out of ugly hollows, the rounding off of protruding angles with the attendant bloom of health and

where he was born July 20, 1837. Dr. attractiveness, it is no wonder that many and varied suggestiens along this line appear from time to time in public print.

While excessive thinness might be attributed to various and subtle causes in different individuals, it is a well-known fact that the lack of sufficient phosphorous in the human system is very largely responsible for this condition. Experiments on humans and animals by many and Mrs. John W. Hanley of Rutland, accentists have demonstrated beyond question. scientists have demonstrated beyond question of doubt that a body deficient in phosphorous becomes nervous, sickly and thin. A noted au-thor and professor, in his book, "Chemistry and Food Nutrition," published in 1918, says: " \* that the amount of phosphorous re-quired for the normal nutrition of man is seri-ously underestimated in many of our standard

text books."

It seems to be well established that this deficiency in phosphorous may now be met by the use of an organic phosphate known throughout English speaking countries as Bitro-Phosphate. Through the assimilation of this phosphate by the nerve tissue, the phosphoric content when absorbed in the amount normally required by nature soon produces a welcome change in our body and mind. Nerve tension disappears, vigor and strength replace weakness and lark of energy, and the whole body soon loses its ugly hollows and abrupt angles, becoming enveloped in a glow of perfect health and beauty and the will and strength to be up and doing. It is sold by E. A. Drown & Co. in Barre and all good drusgists.

CAUTION:-While Bitro-Phosphate is unsurpassed for the relief of nervousness, general debility, etc., those taking it who do not desire to put on flesh should use extra care in avoiding fat-producing foods.—Adv.

This is something entirely separate and apart from the disability benefits of the insurance act, and any man is entitled to compensation, even if he carried no government insurance at all. Many discharged men injured in service have no idea that they are entitled to this compensation, and have made no claim for it.

These are but a few of the many points that confuse the discharged men. The American legion desires of assisting all of them in securing that to which July, 1919, they are entitled. And but a few men understand the steps that should be tak en in connection with their government insurance. Every effort is being made to show the men how desirable it is that their insurance be continued.
